

Leading Provider of State-Minimum Car Insurance Enters Maryland

For more than 25 years, Safe Auto Group Agency, Inc. (SafeAuto) has provided affordable car insurance to those who need it most, when they need it most. Now, SafeAuto is expanding its offerings to the east coast to accommodate the needs of drivers in Maryland, beginning this November.

With the addition of Maryland, SafeAuto now provides the insurance for the rest of us across 20 states. As of November 5th, 2020, Maryland drivers can now get a quote or begin a policy at [SafeAuto.com](https://www.safeauto.com).

“There is a great need in Maryland for low cost car insurance and we are excited to now be able to offer coverages for drivers who only need the state minimum limits and want monthly payment options,” Mark Crutcher, SafeAuto Product Manager, said.

By offering affordable monthly installments and low-down payments, SafeAuto makes it easy to stay covered on the road ahead.

“At SafeAuto, we believe everyone deserves access to the coverage they need at a price that doesn’t break the bank,” Crutcher continued. “Some insurance companies out there make it impossible for people on fixed incomes or living paycheck-to-paycheck to afford insurance the law requires. We want to change that.”

SafeAuto specializes in providing state minimum car insurance to the drivers who have imperfect driving records or bad credit and may otherwise have difficulty finding coverage that truly matches their needs.

With growing consumer demand in Maryland and the surrounding states on the east coast, Crutcher said SafeAuto felt it was time to bring SafeAuto’s products to the Free State.

“It’s an exciting time in the insurance industry and at SafeAuto,” Ron Davies, SafeAuto CEO, said. “With the progression of technology, we can provide super low-down payments and affordable prices all through our technology platform at [SafeAuto.com](https://www.safeauto.com)– or just call us, 24/7. Our goal for nearly 30 years is to put low-cost auto insurance at the consumer’s fingertips. We’re living in a world where we have made this possible.”

SafeAuto has provided consumers with an opportunity for coverage—no matter their situation—since 1993. Historically, it can be difficult for drivers in need of SR-22 liability coverage to get insured. SafeAuto makes second chances possible so every driver can get back on the road.

This expansion comes on the heels of growth seen in 2019 when SafeAuto expanded its footprint to California to provide essential insurance offerings to meet market demand for economical insurance.

Ultimately, the associates of SafeAuto share a common goal: provide customers with the coverage they need so they can enjoy the road ahead.
